

## LIGHTspeed Outdoor Dome 6+1P HS (6C \* 144F) MEGALSPDJ57

The LIGHTspeed outdoor dome enclosure is specially designed to connect and branch optic fibre in aerial, pipeline and direct buried applications.

### Features:

- Outdoor use
- Ease of installation
- Fibre organizing block
- Water & UV resistant.
- Cable entry access from bottom
- Heat shrinkable sealing
- Integrated fibre splice trays
- Splice protectors included (60mm)
- Pressure valve included
- Mounting hardware included
- Wall mounting hardware (optional)

### Application:

- CATV, LAN & Optical fibre communication

### Specification:

Single fibre count (max)	144
Splices (max)	144
Heatshrink Splice Holders (max)	144
Splice Trays	6
Cable Entry Ports - Heat shrinkable (Round)	6 (20 mm) / entry port
Cable Entry Port - Heat shrinkable (Oval)	1 (42 mm diameter)   (2 x 20 mm)
Application environment	Wall / Pole / Underground Chamber / Direct burial
Height	450 mm
Width (Diameter)	230 mm
Material	Polypropylene (PP)
Material Colour	Black
IP Rating	IP 68
Compliant	ROHS
